SUMMARY

Pursuing a **B.S. in Data Science and Applications at IIT Madras**. Skilled in **React Native, Expo, JavaScript, TypeScript, Supabase, Firebase, and Redux Toolkit**. Proven track record of building production-ready mobile applications and AI platforms integrating **Gemini AI** with sub-800ms latency optimizations. Seeking a **React Native Developer** role to build scalable, impactful mobile applications.

WORK EXPERIENCE

Outlier AI

Oct. 2024 – Mar. 2025

Freelance JavaScript Developer

Remote

- Reviewed, debugged, and optimized AI-generated JavaScript code, web applications, and REST APIs to ensure functionality, high reliability, and software quality.
- Fixed performance bottlenecks, resolved logic bugs, and implemented modern coding best practices across client and server logic.
- Evaluated AI-generated code solutions for usability and edge-case handling, providing structured feedback to enhance model accuracy.

PROJECTS

RecipeOS

Mobile AI Application

React Native • Expo • TypeScript • Gemini AI API • Supabase • Redux Toolkit

- Engineered a mobile AI recipe generator leveraging Gemini AI to produce custom recipes based on user ingredients with **sub-800ms generation latency**.
- Built Supabase authentication (email/password & guest mode), persistent recipe saving, and offline state management via Redux Toolkit.

TeachMate AI

 **Top 50 Global Hackathon**

EdTech AI Platform

React Native • JavaScript • Gemini AI API • Redux Toolkit • PDF Engine

- Developed an AI-powered quiz engine generating adaptive assessments tailored by topic, difficulty level, and educational grade using Gemini AI.
- Built an adaptive difficulty engine and instant PDF export system; recognized among the **Top 50 teams out of 900+ global entries** in Octopus Hackathon 2025.

FocusBids

Proposal Intelligence Platform

React • TypeScript • Gemini AI API • Tailwind CSS • REST APIs

- Developed an AI proposal intelligence platform enabling agencies to discover high-value opportunities and extract client requirements.
- Automated tailored proposal creation in seconds with Gemini AI APIs, featuring centralized proposal management and streamlined bidding workflows.

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Python

Frameworks & Libraries: React Native, Expo, Redux Toolkit, React.js, Tailwind CSS, HTML5/CSS3

Backend & AI Services: Supabase, Firebase, REST APIs, Gemini AI API, Prompt Engineering

Developer Tools: Git, GitHub, Android Studio, VS Code, Figma

EDUCATION

Indian Institute of Technology, Madras

May 2025 – Present

B.S. in Data Science and Applications

- Coursework:** Python, Mathematics, Statistics, Machine Learning, Generative AI

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad

Jun. 2023 – May 2025

B.E. in Computer Science and Engineering (Dropout)

- Coursework:** Programming, Data Structures & Algorithms, Computer Networks, Web Technologies
