About me

Currently in foundation level of BS in Data Science and Applications (IIT Madras). Strong foundation in React Native, React.js, and JavaScript with hands-on project experience in mobile apps and AI-powered tools. Quick learner, eager to contribute and grow as a React Native Developer.

Technical Skills

Programming Languages: JavaScript, TypeScript (basics)

Frontend: React Native, React.js, Tailwind CSS

Backend: Firebase, Rest APIs

State Management : Redux Toolkit

Platform and Tools : VS Code, Git, GitHub, AI APIs.

Projects

1. 🏋️ GymB - Gym management App (ongoing)

- App for gym users for attendance marking, payment and analysis

1. 🤖 TeachMate – AI Quiz & Test Generator ([Hackathon Project](#))

- Developing an AI-powered tool for teachers and students to generate quizzes/tests from text, topics, or video links. [Devpost](#) [[GitHub Link](#)]

2. 📱 Document Scanner App

- Built a mobile app using React Native to scan documents and save as PDF/JPG. [[GitHub Link](#)]

Experience

Freelance JavaScript Developer – Outlier AI
Oct 2024 – Apr 2025

Education

BS in Data Science and Applications

Indian Institute of Technology, Madras, | 2025-2028

B.E. in Computer Science & Engineering (Dropout)

Dr. BAMU University, Aurangabad, MH | 2023–2025

What I Offer

- Dedication to learning and applying new technologies quickly.
